Björn Hartong

Global Head of Marine Risk Engineering and Supply Chain, Zurich Resilience Solutions

Björn Hartong, a senior professional in protecting company assets with proven contribution to organizational profitability, joined Zurich Risk Engineering in 2017.

Before joining Zurich Resilience Solutions he was involved for over 20 years in various roles in logistics, security and supply chain performance from different points of view.

Björn has studied economics and logistics, holds a Master of Science degree in Corporate Security Management and an MBA. He is also a board member of TAPA EMEA and member of ASIS of the Supply Chain & Transportation community. Björn has been CPP (Certified Protection Professional) certified for several years and is in the final stage of getting CSCP (Certified Supply Chain Professional) certified of APICS & ASCM.

Björn's aim is to minimize financial negative impact via risk-based loss and damage prevention solutions in the total supply chain and as such improve customer satisfaction by delivering all cargo intact on time.

Management Philosophy:

In today's competitive world, the best way to ensure organizational success is to delight the customer. If a company does not meet or exceed the customer's needs, their competition will.

Specialized Expertise:

- Risk based supply chain security (theft sensitive goods)
- Development and implementation of new supply chains (incl: emerging markets)
- Development and implementation of risk based damage & loss reduction and prevention programs.
- Supply Chain Management and business interruption management

Education:

- MSc Corporate Security Management, Middlesex University, London, UK
- MBA, NCOI University, Hilversum, Netherlands
- CPP, Certified Protection Professional
- CSCP, Certified Supply Chain Professional (Feb 2023)
